Facts

EMMANUEL Vs ABDULBASIT

A Vice-Chancellor wrote to allege that a candidate from ABU, Zaria took over both the score and other details of another candidate from OAU, Ile-Ife and thereby prevented him from being admitted by OAU

✓ **It was a mix up at the two (2) candidates' level due to misuse and careless exposure of passwords of e-mail box and profile which has no effect on the data and process of both JAMB and the two institutions**

✓ **The candidate's details are intact both on the JAMB Desk and at OUA, Ile-Ife**

✓ **The candidate was not recommended for admission in OAU, Ile-Ife to study International Relations because he was deficient in Mathematics at O' level as uploaded to CAPS by the candidate and did not sit for it in the 2017 UTME**

✓ **OAU recently recommended the candidate for History (without a credit pass in Mathematics) Course (into which he has changed) and it was promptly approved**

Let us be conscious of making allegations that can not be substantiated

Weighty allegations should be thoroughly investigated to avoid misleading the Public

We are now tracking best graduating students in every institution viz-a-viz their UTME score

This was because of JAMB clarion call to all stakeholders

to make the conduct of public examination better

93

WHO CAN SIT FOR UTME IN A FOREIGN CENTRE?

- ✓ **A non-Nigerian**

- ✓ **A Nigerian who is a product of a foreign Secondary School system**

- ✓ **A Nigerian who is a confirmed resident in a foreign country (6 month-stay at the minimum)**

.....foreign candidates must fulfil one of the conditions above

AWAITING RESULT CANDIDATES

Our Stand

JAMB allowed Awaiting Result Candidates to register and to sit for the 2018 UTME

These candidates would not be considered for admission on awaiting result status

They must upload their O' level results on the Board's portal before the commencement of admission exercise

Their O' level results form a crucial part of their registration requirements

2018 EXAMINATION

Mock Examination

2nd Series

The Board conducted the 2nd mock examination on Saturday, 24th February, 2018

to identify problems that might arise during the main examinations

to test the new systems introduced in deploying the CBT examination

to allow candidates familiarise themselves with the new software and test their level of preparedness

MAIN EXAMINATION

The main examination was conducted throughout the Federation from

EXAMINATION MONITORING

ALL INCLUSIVENESS: Monitoring System for the 2018 UTME

JAMB has no university of its own

- **It is our desire that all concerned should take the UTME as their own and make it a project**

The process and product of the examination do end up in our various tertiary institutions

- **Let us be mindful of this process**

EXAMINATION MONITORING

ALL INCLUSIVENESS:

Remote Network Monitoring of Computers in CBT Centres

THE PROBLEM

THE WAYOUT

Deliberate movement of candidates from one computer to the other during the examination to indulge in examination malpractice

- ✓ **We installed a software during accreditation on all the computers to be used by the CBT centres during the examination**

- ✓ **This allowed us to monitor all activities going at the centre on a real time basis**

EXAMINATION MONITORING

ALL INCLUSIVENESS:
Use of 9 Keys

THE PROBLEM

From the general feedback on the adoption of the 8 Keys, we have noted that some candidates claimed they mistakenly pressed letter [S] twice and that ended their session

THE SOLUTION

To ensure equity and level playground for all candidates taking the UTME, the Board designed a system that allows candidate to confirm that he/she actually intends to submit and end session by the introduction of the ninth (9th) key without the use of the mouse

The 9 Keys

A, B, C, D

P, N, S, R, Y

Candidates press the letters A,B,C,D for responses (answers) to questions

P = Previous question

N = Next question

S = Submit responses when candidate has finished examination

R = Reverse (do not intend to go further to submit again)

Y = **To confirm submission (intend to go further to submit again after pressing S)**

124

ALL INCLUSIVENESS:

EQUAL DISTRIBUTION OF CANDIDATES TO CENTRES

The Board standardised the CBT centres in terms of carrying capacity of 250

Candidates were distributed evenly to all centres in each examination town without any discrimination

The examination Schedule, Timetable and Sessions were designed, streamlined and synchronised

The examination started and ended the same day within each Examination Town

ALL INCLUSIVENESS:
BLIND CANDIDATES

Many of them have not been exposed to the relevant technology in their various schools

What we did...

We appealed to some universities and other tertiary institutions to admit all the blind candidates that met the minimum requirement for admission in the 2017 UTME

Appreciation

We thank the Vice-Chancellors and Provosts who graciously partnered with us to admit the blind candidates into their institutions

Thank You!

BLIND CANDIDATES for 2018 UTME

An abridged approach was used

All prospective blind candidates were invited to **5 centres** in the country for special assessment

They were assessed in their subjects of choice that are relevant to their desired programmes

The Board reached out to Academics and Counsellors in Special Education who handled this special assessment with each candidate

131

A Quick Note

We will continue to support the centres with the necessary inputs that would make teaching, learning and assessment at the centres seamless

ADMISSION

CENTRAL ADMISSION PROCESSING SYSTEM (CAPS)

CAPS was developed and introduced in 2017 and was immediately deployed for the conduct of the Admission exercise for 2017/2018 after series of Engagements with Stakeholders

......Capacity Building Sessions were organised for the institutions and JAMB staff
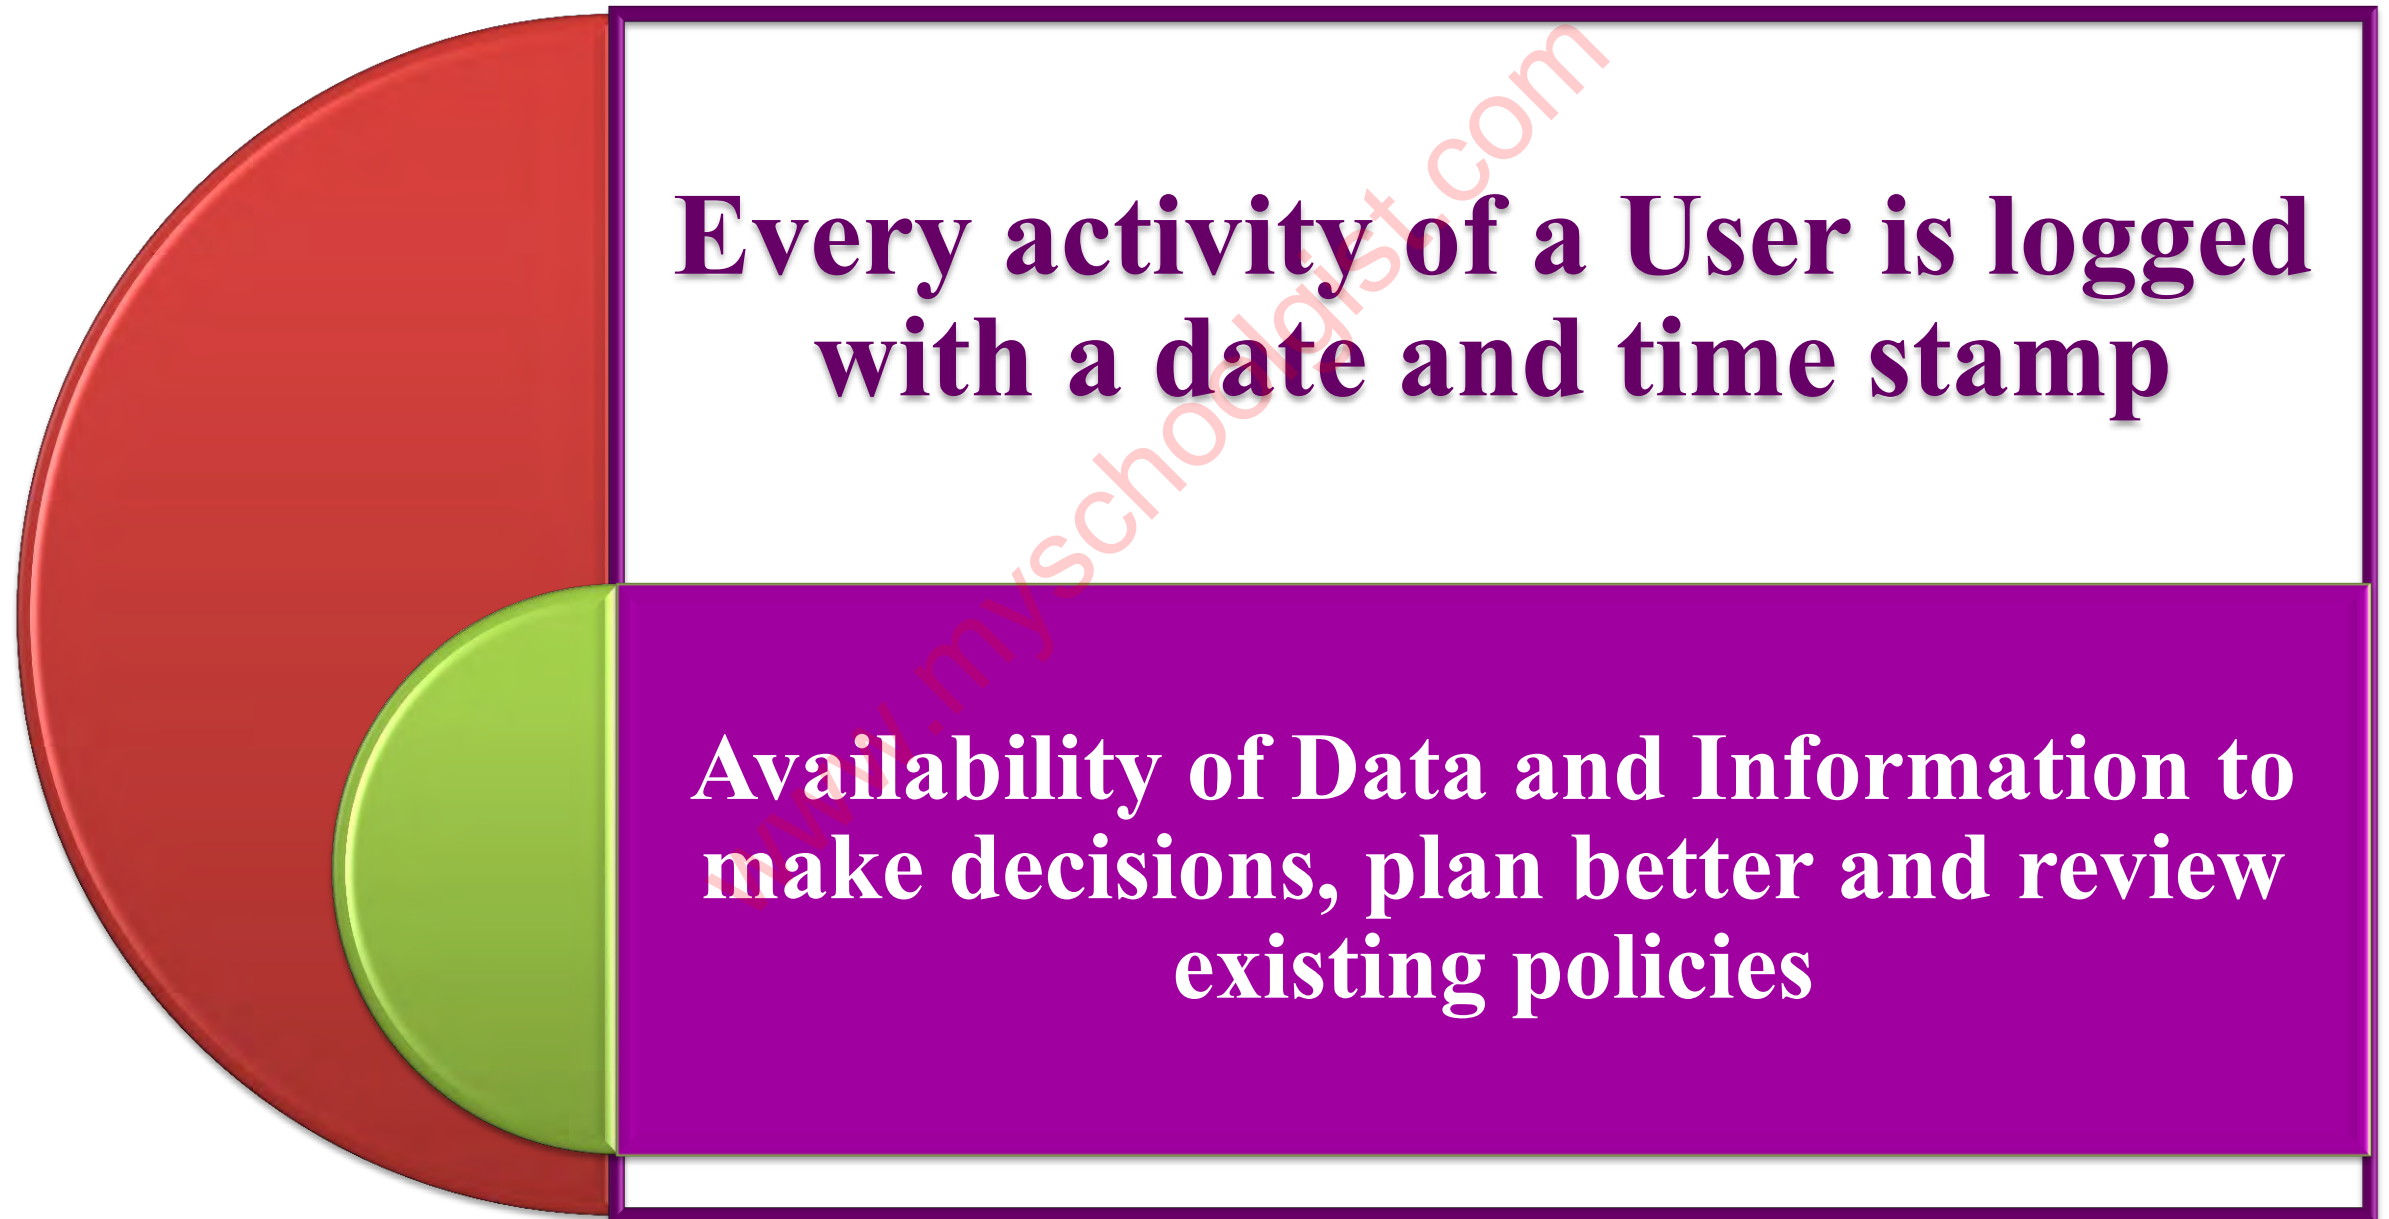

OUR PROMISE TO YOU

....on CAPS

1. Restored Autonomy to the Institutions with regards to Admissions process

Individual Institution's Minimum UTME score

Institutions admitted only candidates with appropriate Minimum UTME score

Exemption Admission was properly and jointly controlled

Wrong Subject combinations were also checked
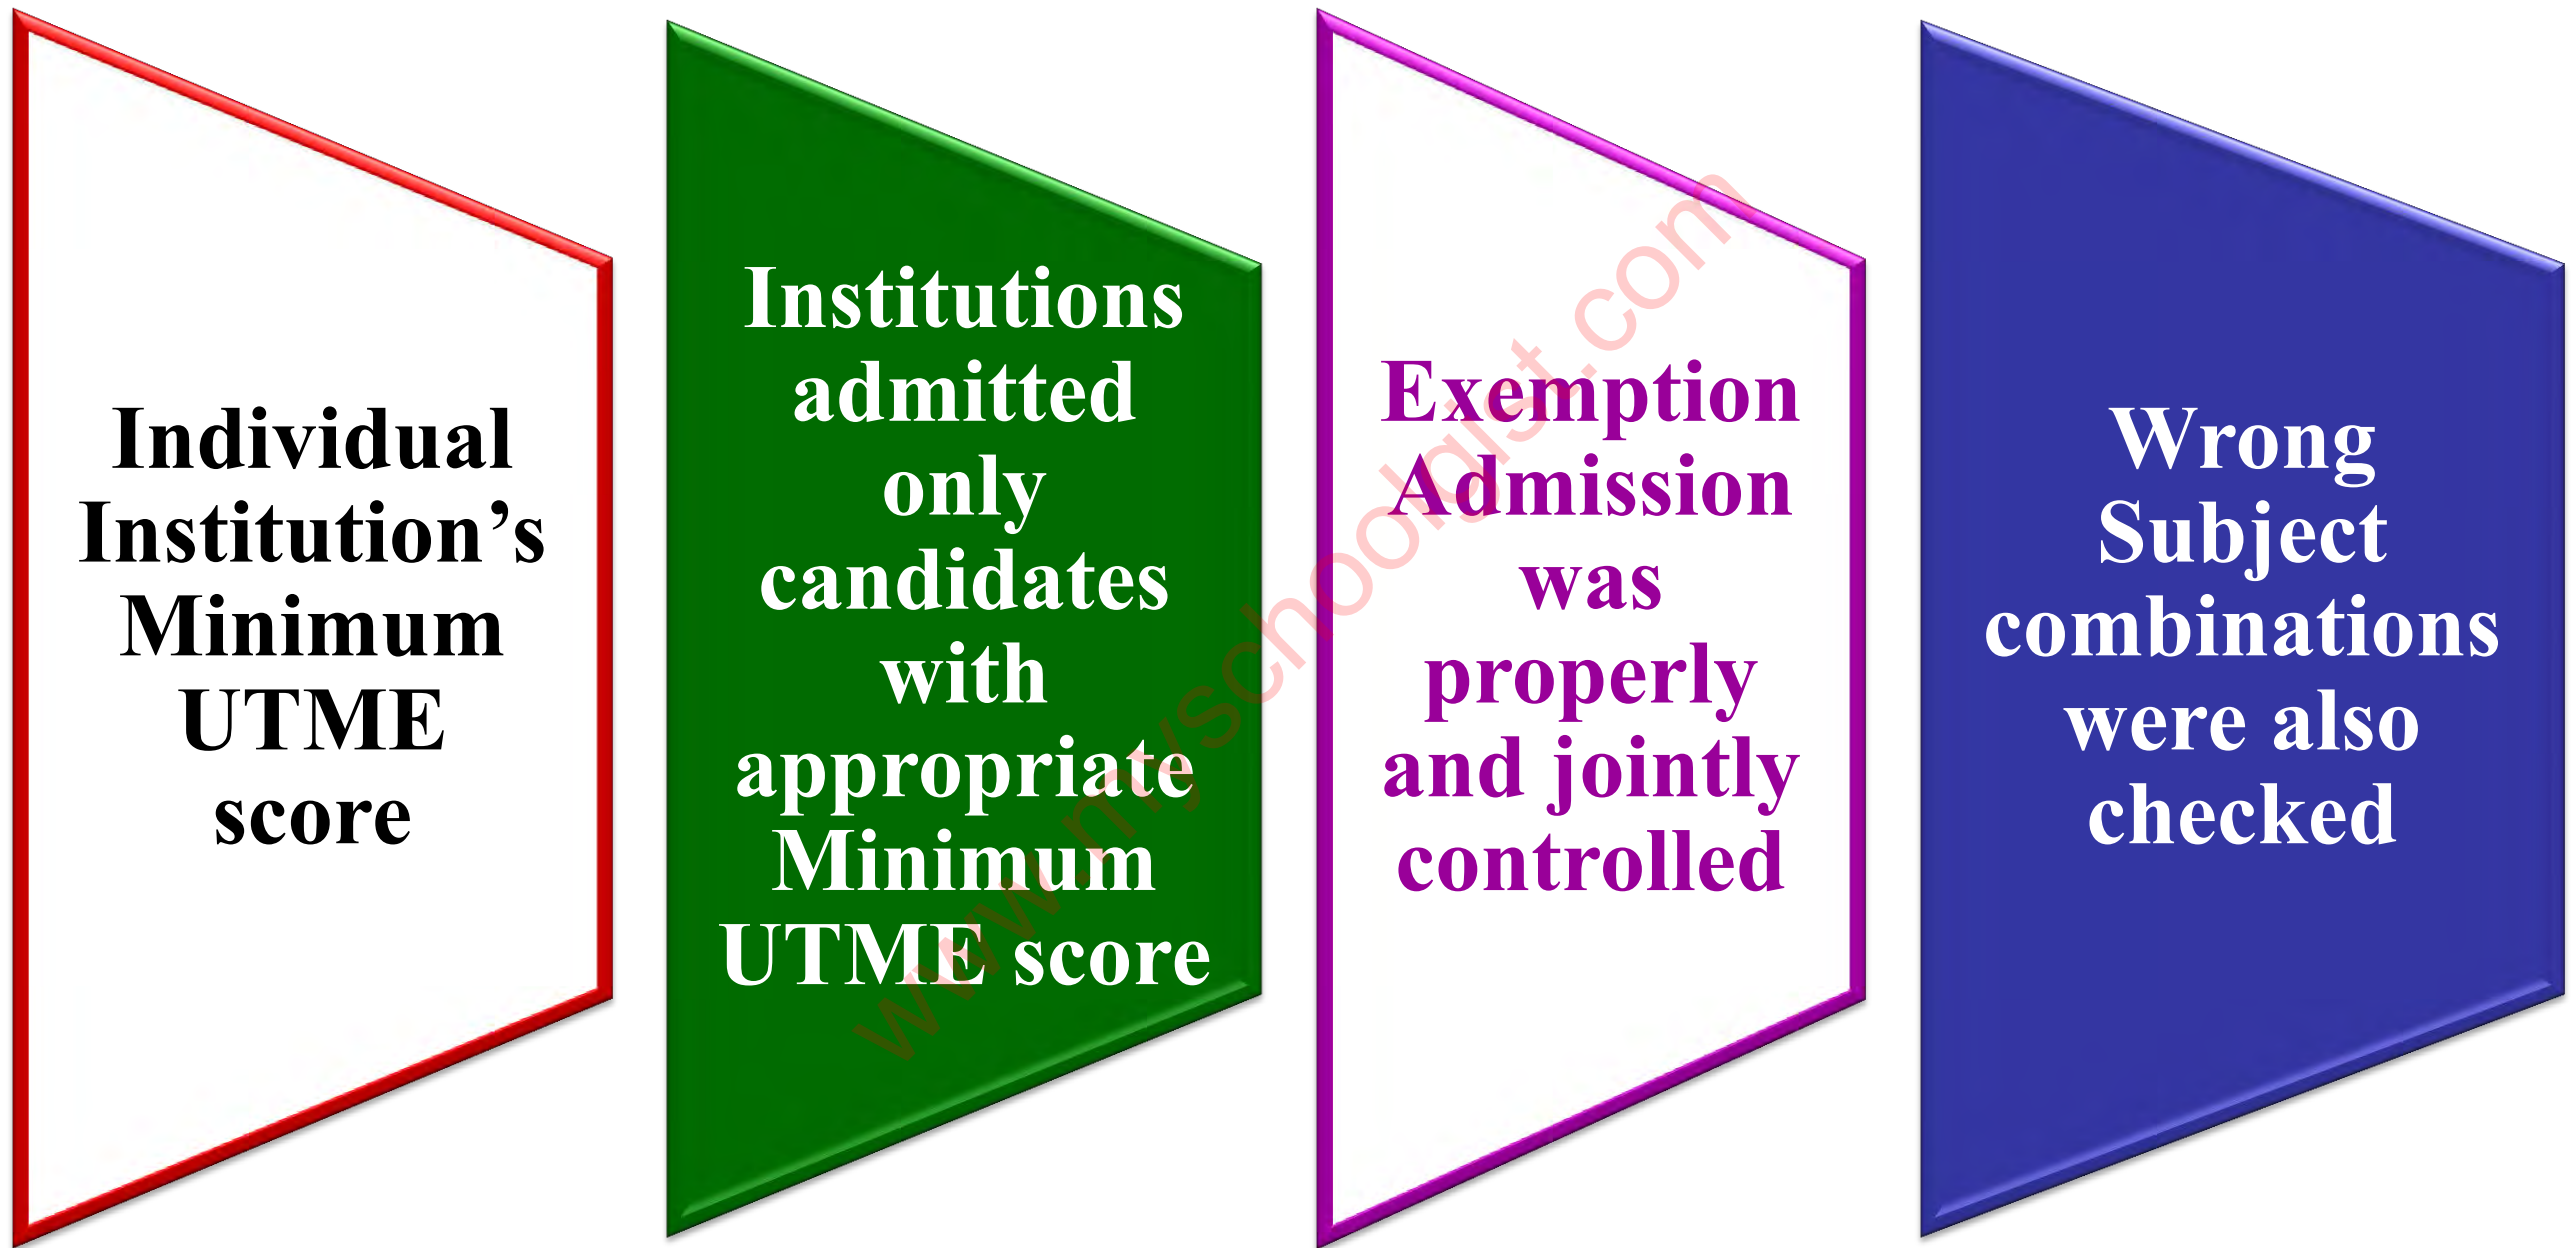

.....institutions should note that the same cut-off mark is applicable to the mother institution as well as its affiliates

2. Transparency, Openness and Accountability in the Admission Process

Every activity of a User is logged with a date and time stamp

Availability of Data and Information to make decisions, plan better and review existing policies

3. Market Place to Source for Candidates

Every institution was given access to source for candidates through the Market Place

But Candidate's Contacts were not given to institutions to avoid abuse

Case of Federal Polytechnic, Offa and Ogun State ICT Polytechnic, Itori

4. Involvement of Candidates in the Admissions Process

Every Candidate is required to "Accept" or "Reject" his/her admission before the process is said to be completed

Candidates can now protest their admission status should they feel they are not fairly treated

Institutions concerned now also have a means of revisiting the process

SUBSTITUTION OF ADMISSIONS NOT INVOLVING CANDIDATES

(DELETION/REJECTION):

Using CAPS

3 scenarios with respect to substitution (deletion/rejection) of admissions arising from CAPS but NOT involving candidates

1. Where A Candidate Does Not Want Admission offered him/her During The Year's Admission Exercise

The candidate would only need to reject the offer of admission & he/she would be available to the institution or any other institution in addition to the market place for reconsideration (recommendation) through CAPS

All rejections automatically release the space thereby creating an opportunity for another candidate on the list immediately

The quota used for candidates would also be released and made available to the institution automatically
